1. STEM Experience and Future Plans

What is the vision for STEM programming and growth in your council?

Describe how the Girls Go Techbridge programs-in-a box would complement the current STEM activities your council offers.

Please describe past and current STEM (science, technology, engineering or math) activities you offer.

How do you bring STEM programming to underserved populations?

2. Partnerships

Describe any partnerships (both programmatic and funding partners) you have worked with to deliver STEM programs. (Corporations, professional groups, colleges or universities, science centers, etc.)

Please describe the successes and challenges of one of these partnerships.

Describe any training prior to the events/activities when working with programmatic partners?

3. Training and Evaluation

Please describe any train-the-trainer activities, particularly for STEM projects, in your Council.

How do you currently evaluate the success/effectiveness of your programs?

Do you survey girls before and after programs?

4. Program Kit and Sustainability Plan

Does your council offer program kits or boxes for girls (please indicate any STEM kits and the year they were adopted by your council)?

How many girls have been served with the kits or boxes annually? Is this typically through troop use, service units, day camps, resident camps, and special events? Please describe.

Please describe how you have sustained a program in the past after grant funding ended.

How do you propose sustaining the Girls Go Techbridge programs-in-a-box after funding has ended?

Additional Information:

Please share any additional pertinent information, such as your council’s plans to market the programs-in-a-box and proposed strategy to meet the 500+ girl uses in one year.

Please attach your current annual report and any current printed materials (program guides, event fliers, newsletters) distributed to volunteers.

Please do not exceed 6 pages in your response. This does not include attached reports and materials.
